1. Definition of the Problem

After reading the project specifications, the developer states the scope of the project very briefly. This is referred to as the problem definition. For example, in the case of HealthPlus portal, queries of various staff members can be one or all of the following: i. How many company names can be displayed on the marketplace page at a time? Project Guide V 1.0 Aptech Ltd ii. What information should be displayed about each company in the marketplace? iii. Will the rates per day for ads be displayed for each company in the marketplace? iv. Will the users be able to contact the company whose ad is displayed on the portal? v. Will other companies be able to contact HealthPlus after visiting the site to display their ad on the HealthPlus portal? After consulting several IT companies and considering the budget constraints, the management of HealthPlus has decided to launch the Web application as a Single Page Responsive Web application. Hence, the project will use HTML5, CSS3, JavaScript, Geolocation API, Web Storage, AngularJS, and Bootstrap 3.3 libraries from getbootstrap.com, jQuery plugins, and, Notepad++, or other HTML editors. Also, the site will be tested on popular browsers and mobile emulator software.

2. Requirement Analysis

This phase consists of following:

- **List of inputs to the system**
 - User will give Appointment Booking information
 - User will be able to create his medicine dosage schedule
- **List of outputs expected from the system**
 - User will get his appointment details
 - User will get the dosage details
- **Hardware Requirement**
 - Intel Core i3 Processor or higher
 - 1 GB RAM or higher
 - Color SVGA
 - 80 GB Hard Disk space
 - CD-ROM or DVD-ROM drive
- **Software Requirement**
 - Windows 8, 10, or higher
 - HTML5 and JavaScript supporting browser
 - Bootstrap 3.3 libraries from getbootstrap.com, jQuery plugins, and
 - CoffeeCup, Notepad++, or other HTML editor

Project Plan 1. Project Details

- **Name of the Client:** Sir Fahad.
- **Date of the Project Plan:**
8/10/2022
- **Project Vision/Objectives:**
They asked for a static medical care website that included the pages and details above as well as well responsive and well-made contact us and feedback forms with validation.
- **Scope:**

We have created a Static Website .Our project is based on a Hospital website "Healthplus".In it we have covered all the necessary things that a healthcare website contains. People can see there appointment slots on it, can get knowledge about experienced doctors so that they can get consult from them .There are different pages like homepage, contact us, feedback, about, and consultancy that can be visited by anyone it's a healthcare portal and can help people in many ways.

- **Project Organization with Responsibilities and Authorities**

Aaiza: Designed Feedback form and did all documentation work also helped in picking the color themes.

Qirat: Designed Contact Us, Appointment page and collected all the important images and designs.

Uzair (Group leader): Made Footer and did efforts too. made things attractive.

Danish: Made Home Page, Blog Page and Consultancy page sliders and all and worked on linking of pages. Also Made the website responsive.

3. Design Phase

Design phase involves the preparation of the blueprint of the proposed system.

➤ Designing the GUI Standards

For the HealthPlus portal, multiple screens have been created and linked to each other. Each of these screens should have a consistent look with respect to appearance, and theme used. The font styles, color of the labels, design and appearance of the command buttons, the appearance of header and footer, and the design and size of controls, such as check boxes or text boxes should be consistent through all the forms.

In the case of HealthPlus portal, the modules could be for:

- Appointment
- Medical Dosage
- Dental Service

Document Design

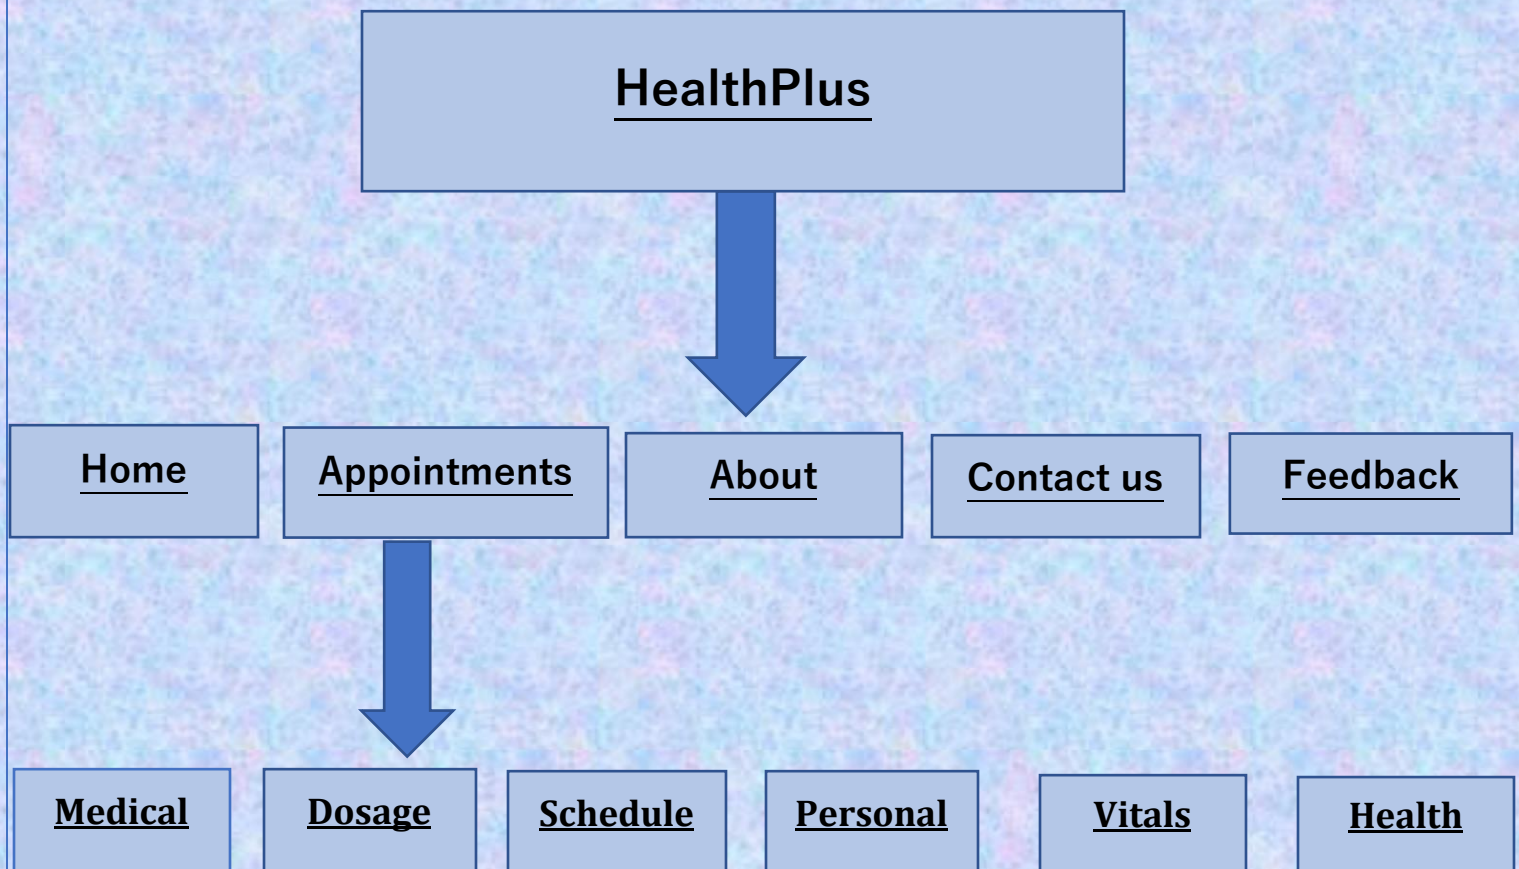

Property	Value
Document Theme and Color Scheme	#8e1a4b, #ef233c, #fff, #111
Form-Background Color	#fff
Title-Font Size	1.7em
Title-Font Color	#8e1a4b
Title-Font Style	Signika Negative, lobster2
Title-Alignment	left
Background color of Controls on the form	#fff
Foreground color of Controls on the form	#8e1a4b
Control Caption-Font Size	1.25em 1.7em
Control Caption- Font Color	gray #8e1a4b
Control Caption- Font Style	Signika Negative, lobster2
Control caption and controls-Alignment	center
Command button-Alignment	right

Project Report**➤ Assigning and Monitoring Tasks**

Date:	Project Plan/ Milestone	Status of the Activity	Remarks	Responsibility
10-Aug-2022	Homepage Designing	Complete	-	Aaiza Qirat
11-Aug-2022	Contact Us Feedback Appointment	Complete	-	Uzair Danish
12-Aug-2022	Final touches Designing Linking Pages	Complete	-	Aaiza Qirat Uzair Danish

4. Architecture of Website

Site Map:-

5. Project Tracking/Monitoring Activities

S. No	Aspect Tested	Suggestion/Remarks
1.	Have all the modules been properly integrated and are they completely functional?	YES, COMPLETED
2.	Does each unit meet its objective and purpose? Are all the validations happening properly?	WORKING PROPERLY
4.	Is the GUI design consistent all over?	YES
5.	Are the codes working as per specification?	YES
6.	Does the application's functionality resolve the client problem, and satisfy his/her needs completely?	YES
7.	Have the hardware and software been correctly chosen?	PROPERLY INDEED
8.	Additional features and utilities that give value addition to the entire project.	YES

1. List of forms to be created

Page/Form Name	Description	Controls on the Page/Form
Homepage	It's a Title page.	It displays the purpose of the website.
Feedback	This page allows user to provide their feedback and questions.	It displays the questions asked by the user.
Book an Appointment	Allows user to book an appointment for a visit.	It displays the timings and slots available for appointments.
Contact Us	Allows user to contact our hospital for further information.	It displays contact displays such as email, phone numbers etc.
Blog	Allows user to learn more about our website and follow safety measures and health tips.	This page displays a list of health tips and safety measures for you.
Our Team of Specialists	Allows users to approach and learn about our professional team.	This page displays a list of highly qualified doctors all around the world.

Wash your Hands Properly

Germ from unwashed hands can be transferred to other objects, like handrails, table tops, or toys, and then transferred to another person's hands. Removing germs through handwashing therefore helps prevent diarrhea and respiratory infections and may even help prevent skin and eye infections.

Health Tips Care

Have Regular Check-Ups

A generation ago, people used to see their doctor only when they were sick, or dying. Today, preventative health care is becoming commonplace as people become more educated and empowered about their own health. People are preemptively seeking medical advice on how to live a healthy lifestyle. They are looking to lower their risk of various conditions or diseases by maintaining a healthy diet, weight, and level of physical activity.

Doctors are also requesting that patients get regular check-ups to help stay on top of their health. They are highlighting the importance of prevention, as a means to reduce the number of patients requiring medical treatment or surgery.

Alcohol Injurious To Health

Alcohol poisoning, a medical emergency that results from high blood alcohol levels. Alcohol use disorders, or alcohol dependence. Taking certain prescription or over-the-counter medications that can interact with alcohol. Suffering from certain medical conditions. Recovering from alcoholism or are unable to control the amount they drink too much can harm your health. Excessive alcohol use led to more than 140,000 deaths and 3.6 million years of potential life lost (YPLL) each year in the United States from 2015 – 2019, shortening the lives of those who died by an average of 26 years. Further, excessive drinking was responsible for 1 in 10 deaths
